

R Workshop — College of Social & Behavioral Sciences

Two sessions, three hours each: **Day 1, Sept 11** and **Day 2, Sept 25**. Josh McCrain (josh.mccrain@utah.edu).

Before Day 1

1. Install **R** (<https://cran.r-project.org>) and then **RStudio Desktop** (<https://posit.co/download/rstudio-desktop/>). Both free. R first, RStudio second — RStudio is a front end and needs R already there.
2. Create a folder somewhere on your computer called “R Workshop”.
3. Save the attached criminalrecord.csv file in a subfolder within the “R Workshop” folder called “data”.

Do not install any packages — Day 1 uses none.

Files

File	What it is
day1_intro_to_R.R	Day 1. Follow along in the session.
data/criminalrecord.csv	Pager (2003) audit study example data.
